About Us – Las Vegas The Collision Center

The Collision Center is a Las Vegas Auto Body Shop & Auto Repair facility that has made Trust, Customer Service, and exclusive Transparent Repair Servicetm (TRStm) a foundation of their business (this is in third person). A true family owned and operated business serving the Las Vegas Area since 1988 with unmatched honesty, quality, and transparent fair pricing. (and this is in first person -->) We have an experienced Team of ASE Certified technicians to provide our TRStm, accurate and truthful diagnosis and repairs to ensure the vehicle is restored to a pre-accident condition.

Transparent Repair Servicetm (TRStm) offers Clear Honest Communication

At The Collision Center we think you the customer, deserves to know what is wrong with your vehicle, how we are going to fix it, and how long it is going to take. We encourage you to ask questions and they will be answered honestly and transparently by our knowledgeable staff. We understand how important it is for you to have answers for all of your questions. We have built our business by offering the best quality service and delivering peace of mind.

We Offer Deductible And Car Rental Assistance.

OUR SERVICES

AUTO BODY & PAINT

Total Collision Repair for All Foreign & Domestic Cars, Trucks & SUV's

Restoring Integrity, Value & Peace of Mind.

An ideal collision repair will preserve resale value and, more importantly, restore structural integrity so that safety systems react exactly as they were designed to do in the event of another collision. The Collision Center employs the latest technology alongside an unrelenting commitment to safety to ensure that your vehicle has truly been repaired properly before carrying you and your family again.

Return to the Road with Confidence

Every collision repair starts with an in-depth analysis of an accident to reveal damage that may not be discovered without knowing exactly how passengers and objects reacted during a collision. We then faithfully replicate factory production & assembly techniques, with a strict adherence to meeting or even surpassing manufacturer's specifications, to ensure that your car will perform once again exactly as it was intended to do.

After an accident, one call to us and we take over the restoration process from start to finish:

1. Towing it from the accident and complementary shuttle service if necessary
2. Tearing down the vehicle and preparing a preliminary estimate for YOU, the CLIENT, and the ADJUSTER
3. Establish consistent communication and work very closely with the Insurance Adjuster to get a quick approval
4. Begin and complete the repair process quickly and efficiently without any compromise to safety
5. Maintain Total Client Satisfaction

Comprehensive In-House Collision Repair Facilities & Equipment

The Collision Center carries everything to repair even the most extensively damaged vehicles completely in-house. We have the most advanced chassis repair, wheel alignment & on-board diagnostic equipment available to ensure the highest standards of quality & expedite repair times. Your vehicle will not have to leave our shop to go to another facility or a dealer to complete repairs.

AUTO BODY RESTORATION

SAVE 50-60% OFF DEALER PRICES ON PARTS & LABOR

Superior Maintenance and Restoration Services for All Foreign & Domestic Cars, Trucks & SUV's.

There is a difference between repairing a damaged vehicle and restoring it to its pre-accident condition, its more than just semantics. It's vitally important to have the vehicle fully restored to its pre-accident condition by an authorized and reputable auto body restoration facility. What is at stake is not just the proper functioning of your vehicle, but also their driving safety. Often times that means more work for us in dealing with the insurance company's adjusters when hidden or unaccounted-for damage is discovered during the restoration process. We have built our reputation for quality on "doing it right", working on behalf of and satisfying you our client. The Collision Center is a full-service auto body restoration shop that has the skill, experience, and knowledge to restore both the inside and outside of your vehicle. We will provide you with complete satisfaction. Whether you need work on the latest foreign and domestic models, full size truck or SUV, we do your restorations right the first time.

Often, auto body restorations are a great inconvenience. That is why we do all we can to get you back on the road as quickly as possible without compromising quality. We use the highest quality tools, equipment, and supplies and never skimp on components or paint. Doing it right the first time will help keep your car in tip-top shape and prevent future issues with any completed restoration work. That is why it is important to take your vehicle to a body shop with integrity and a focus on providing you the best. We will use new parts in the restoration of your vehicle unless otherwise required by your insurance company. Also, each of our technicians is fully certified by I-CAR, the Inter-Industry Conference on Auto Collision Repair. We use state-of-the-art technology and the latest in computerized estimate and restoration systems, to detect and restore hidden damage that even the most thorough visual inspections miss.

Our auto body restoration services:

- Full Service Frame Alignment
- Paintless Dent Restoration
- Dent Removal
- Professional Painting and Coating Services
- Spot Restoration and Painting
- Component and Part Restoration
- Component and Part Replacement
- Body Alignment
- Interior Restoration and Replacement

AUTO BODY PAINTING

When it comes to paint, the smallest details can make a massive difference. Even the slightest cutting of a corner or the minutest imperfection can ruin the paint finish. The Collision Center features the most advanced auto painting facilities, supplies and equipment paired with an unparalleled commitment to quality to produce truly amazing, better than OEM factory quality automobile paint finishes.

Junair Americas Series spray booth delivers the highest quality paint finish

The Collision Center offers the finest painting equipment to reproduce factory paint finishes and for exact color matching capabilities. Our temperature controlled, The Junair Americas Series spray booth oven is a highly specified production unit. Every feature of this spray booth has been engineered to be the best in its class. Combined with energy saving and production enhancing equipment the 5 Series spray booth oven delivers the highest quality paint finish. A LEVAC or EVAC fully extracted and balanced floor is incorporated into the 5 Series spray booth oven as standard. In combination with the full width, full length plenum, the downdraft airflow through this cabin is second to none. The Top of the line Junair spray booth incorporates a full range of highly innovative features including: T-5 high output lighting; the best "fit and finish" cabins in the industry; the latest in controller technology; energy savings at all levels and the QADs™ air movement system.

Sherman Williams Paint Products for Better than OEM Quality Paint Finishes

The Collision Center uses Sherman Williams paint refinishing products to faithfully replicate OEM quality paint finishes. Sherman Williams is the Official Automotive Paint of NASCAR®. The new Sherman Williams The Ultra 7000® Premium Refinish System offers best in class color match and blending, supported by OEM certifications and a Limited Lifetime Guaranty, optimizing an absolutely brilliant, lustrous finish.

Advanced Color Matching

We're renowned for our expertise in producing brilliant paint jobs as well as our color matching skills for older and classic vehicles. We can restore faded paint or match natural weathering from time. Our advanced, computer aided color matching system allows us to match faded or weathered paint as well as non-factory, single & multi-stage custom paint jobs.
